

Ham Radio Connection Solution

1. Handheld Radio

(1.1) Fixing the SMA-BNC Adapter/Cable to quickly change antennas to base, mobile or different style use, as well as to prevent chassis connector wear or from coming loose due to antenna changes.

(1.2) Fixing In-series SMA Adapter / Cable and antenna with base can place antenna anywhere for different style use.

(1.3) Fixing the SMA-UHF Adapter / Cable can use the more popular and wider selection available of UHF antennas to quick change the antenna and prevent chassis connector wear or from coming loose.

2. Vehicular Radio

(2.1) Fixing the BNC Adapter / Cable to quickly change antenna to base, or different style use, as well as to prevent chassis connector wear or from coming loose due to antenna changes.

(2.2) Fixing the SMA Adapter / Cable can use the more popular and wider selection available of SMA antennas to quick change the antenna and prevent chassis connector wear or from coming loose due to antenna changes

(2.3) Fixing UHF extension cables to easy change the antenna position for your different style use.

Ham Radio Connection Solution

SMA Connector Femal
Bulkhead for RG58 LMR195

BNC Connector Male for
RG58 LMR195

Radio Antenna Connector
SO-239 for RG58 LMR195

NMO Mount Connector for
RG58 LMR195

Radio Antenna Adpter SMA
Femal to SMA Femal

Radio Antenna Adpter SMA
Femal to BNC Femal

Radio Antenna Adpter SMA
Femal to UHF Femal/SO-239

Radio Antenna Adpter PL259
to SO-239

Radio Antenna Cable BNC
Male to BNC Male

Radio Antenna Cable BNC
Male to UHF Femal /SO-239

Radio Antenna Cable NMO
Mount to UHF Male /PL-259

Radio Antenna Cable PL259
to SO239

Whip Antenna 15.6" VHF/UHF
(144/430Mhz) SMA Female

Short Antenna SMA Female
for Baofeng GT-3 UV-5R

Dual Band Mimi Soft Handheld
Antenna 144/430Mhz SMA female

Radio antenna SMA Male straight
with Magnetic base antenna
